

## Keith & Ursula's Favorite Tour- 2019

Mileages are rough estimates only. The following abbreviations are used today:

R= turn Right, L= turn Left, BR= Bear Right or BL= Bear Left, a turn significantly less than 90 degrees. @ = At- take the action as close as possible to the sign, road, etc. Onto= Proceed onto the road named. C= Continue, usually not necessary, MBCU= May Be Considered Unnecessary, for information only to help with navigation, Sleeping Bobbies= Speed Bumps. There are no gimmick, tricks or other stuff to "catch" you. Please keep track of your instructions so that if you are separated from other drivers you can join up with us at the next rest stop.

**Driving speeds: With any group of people, many have different ideas of what speed is enjoyable. There are three collection points where the quicker drivers will wait for the group to "re-group". If you find you have cars behind you, let them pass and we will all wait. Enjoy the roads, the scenery and your car!**

	Zero Odometer	Mileage
1. L @ top of driveway onto 189 <sup>th</sup> St.		0
2. L @ 222 <sup>nd</sup>		1.0
3. C onto Finn Hill
